Summary

Motivated and detail-oriented frontend developer with couple months of hands-on experience building responsive, user-friendly web applications. Proficient in modern web technologies such as HTML5, CSS3, JavaScript (ES6+), React.js, and TypeScript. Demonstrated ability to develop and optimize web applications through personal projects, adhering to industry best practices in UI/UX design and code efficiency. Familiar with version control systems like Git, and experienced in working with APIs and third-party libraries. Eager to contribute to a dynamic team environment and grow skills in frontend development.

My Portfolio - https://portfolio-dheeraj-mehra.netlify.app/

Projects

1. Clone -Netflix

This project is a netlfix clone, mimic the core features and functionality of the netflix . I used firebase database for user authentication and used movie database (TMDb) API). The project is fully responsive and user friendly.

View Project - https://clone-7a88ac.netlify.app/

2. Ecommerce-app

Frontend development of an e-commerce platform focusing on user interface . Implemented a component based architecture.
Tech : React, tailwind, HTML,JavaScript
View code- click to view code on Github
Live Demo - click to view site
