dheerajsinghmehra0405@gmail

Panchkula,chandigarh

Motivated and detail-oriented frontend developer with couple months of hands-on experience building responsive, user-friendly web applications. Proficient in modern web technologies such as HTML5, CSS3, JavaScript (ES6+), React.js and tailwind css. Demonstrated ability to develop and optimize web applications through personal projects, adhering to industry best practices in UI/UX design and code efficiency. Familiar with version control systems like Git, and experienced in working with APIs and third-party libraries. Eager to contribute to a dynamic team environment and grow skills in frontend development.
